- Tech enthusiast.
- Quick Learner.
- Learn, Unlearn, Re-Learn

EXPERIENCE

AI Intern   India
Codesoft   Apr, 2024 - May, 2024

I have successfully completed virtual internship in Artificial Intelligence in CodeSoft. I have successfully completed 3 tasks:
- Chatbot
- Recommendation System Based on User Preference
- Tic Tac Toe Game using AI

ML Intern   India
Codesoft   Apr, 2024 - May, 2024

I have successfully completed virtual internship in Machine learning in CodeSoft. I have successfully completed 3 tasks:
- Movie Classifier
- Credit Card Fraud Detection
- Spam SMS Detection

Data Science Intern   India
Codesoft   Apr, 2024 - May, 2024

I have successfully completed virtual internship in Data Science in CodeSoft. I have successfully completed 3 tasks:
- Titanic Survival Prediction
- Movie Rating Prediction
- Credit Card Fraud Detection

EDUCATION

Bachelor in Information Technology   Kathmandu
Patan Multiple Campus   Apr, 2021 - Present

I am currently in 7th semester.

PROJECTS

Full-Stack Responsive Website

I have created Fullstack website for a restaurant, where i have used bootstrap as a CSS framework, django as a backend and pretty design.
https://github.com/sumanpokhrel-11/django-website

Data Manipulator

This project was given by Datacamp. This Project uses the python library like Pandas and Matplotlib With the help of panda we can clean the data. With the help of Matplotlib we can visualize the data in graphical form
https://github.com/sumanpokhrel-11/data-manipulator

Open CV

Using Open CV for scanning hand movement, face detection which is used in various fields like Traffic Control, ATM machine.
https://github.com/sumanpokhrel-11/ai-vision

Others Project

I am currently doing bootcamp of python and exploring core to it. I have also created different websites using Django Framework with Postgresql as a database.
https://github.com/sumanpokhrel-11

TRAINING/CERTIFICATIONS

Python Datascience
2022

Datacamp

There i learnt basic Python programming language and it's library like Numpy, Pandas, Scipy, Matplotlib and using those i learn how to extract data, modify it and visualize it beautifully.

Python Programming Language
2023

Youtube / Udemy

- learnt basic python.
- learnt library such as numpy, pandas, matplotlib.
- learnt basic Machine Learning programs using tenserflow.
- learnt basic computer vision using open cv.
- learnt concept of OOP.

Full Stack Web Development

HTML / CSS / JavaScript / Bootstrap / Django

SKILLS

Communications, Quickly decision making, Problem Solving, Adaptive to any circumstances and experienced to work under pressure, C/Python/JavaScript/PHP/OOP, Leadership skill, fullstack web developer with Knowledge of frontend: HTML CSS Js Bootstrap, Django, Postgresql, Familiarity with Software Development Life Cycle (SDLC), PostgreSQL/MySQL, Version Control: Git, GitHub

LANGUAGE

Nepali/ English/Hindi
